

# Environmental Policy

ISO 14001 : 2015 PROMECHANICA

**PROMECHANICA Ltd.** is committed to environmental leadership in all of its business activities. We follow policies to provide a safe, healthful workplace, protecting the environment, conserving energy and natural resources. With these policies in place we believe that we can achieve a healthy and safe environment.

Our policy is to reduce the impact of the company's operations on the environment, through its proactive activities. The goal is to promote sustainability and environmental awareness at all levels of the company by:

- Complying with all applicable environmental legislation and sustainability commitments
- Measuring, analysing and minimizing the carbon footprint of our business activities in conjunction with other climate change mitigation and adaptation efforts
- Preventing pollution and reducing consumption of resources through waste management strategies that promote waste minimisation re-use, recovery and recycling, as appropriate
- Incorporating energy efficiency measures into the company's facilities and promoting efficient energy use in all areas of business activity
- Promoting and continuing to invest in newest energy-efficient technologies which minimize the carbon footprint of our activities
- Adopt a procurement programme which takes into account the environmental impact of products and services and supports the purchase of energy-efficient products
- Ensure our staff are aware of the environmental impacts of their work activities and encourage them through regular awareness and training to minimise those impacts.
- Pursuing a programme of continuous improvement by reviewing our Environmental Management System and related objectives and targets, policies and practices

Management: January 2020

This policy will be reviewed on a regular basis to evaluate continued relevance and to monitor compliance.
